[Glady V. Rosales](#) Saturday, 6 December 2014

About This List:

Information is collated from various sources (web, CCPh members, etc.) and is subject to change. Please call the clinic to confirm:

- Current rates (and whether or not it includes anesthesia and antibiotics and blood tests)
- Clinic hours
- Necessity to make an appointment
- Eligibility and preparation of the animal for Surgery
- What spay procedure to be done (ligation or ovariohysterectomy)
- Whether or not they accommodate females in heat or pregnant

This list includes clinics/vets with rates 1,500 and below (for neutering). Clinics included in the list are listed based on S/N rates only. Please consult other cat guardians in the group for feedback on clinic or vets and use best judgment in choosing the clinic.

Clinics marked with \* are most visited by CCPh members. Scroll further down for Provincial listings. Please check your own City Veterinarian's office for free or low/cost spay and neuter programs as well. Certain clinics have special requirements to avail of the low-cost S/N. Please read the notes under each to know about them and prepare them prior to setting your appointment. As with the rates, these requirements are subject to change and are discretionary to the clinic.
